***Reasons for Allowance***

3. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, prior art does not disclose or fairly suggest a method including the step of using a marking in a reference image for setting operating parameters of an X-ray examination device when irradiating a subject with X-rays with said X-ray examination device to generate an unblurred image at substantially only said slice level of said subject, in combination with all the limitations in the claim. Claims 2-7 are allowed by virtue of their dependency.

Regarding claim 8, prior art does not disclose or fairly suggest a device including a processor using a marking in a reference image for setting operating parameters of an X-ray examination device when irradiating a subject with X-rays with said X-ray examination device to generate an unblurred image at substantially only said slice level of said subject, in combination with all the limitations in the claim. Claims 9-15 are allowed by virtue of their dependency.

Regarding claim 16, prior art does not disclose or fairly suggest a device including a processor using a marking in a reference image for setting operating parameters of an X-ray arrangement when irradiating a subject with X-rays with the X-ray arrangement to generate an unblurred image at substantially only said slice level of said subject, in combination with all the limitations in the claim.
